Dissertation **Interlocutor awareness and bilingual language choice: An eye-tracking study on Hindi-English bilinguals**

This eye-tracking study investigates whether in an interactional context the proactive language selection in high-proficient Hindi-English bilinguals is constrained by the perceived language proficiency of the speaker during communication.

Supervised by : Prof. Dr. Ramesh Kumar Mishra

Internship **Software Engineering Research Center, IIIT Hyderabad**
Research Intern, Speech Signal Processing, 2019 (Summer)

The summer internship was an open source software development project titled “Linear Predictive Coding of Speech”. I developed a JavaScript based speech signal visualiser for voiced and unvoiced speech sounds. The project can be accessed here (Github page)
